

AGENDA

1. MEETINGS

- Are these meetings merely a formality, or does our opinion matter as tax paying citizens of this village?
- Who do you work for?
- Handout #1 Concrete pavement progress.
- Handout#2 The truth about tax money on Gateway Commerce Center.

2. PETITION AGAINST ASPHALT

- Our homes are our biggest investments. We have put a lot of hard work, time, and money into them.
- Mayor, there are 86 homes that will be effected by the asphaltting of the streets. We have 75 signatures which is 88 % of the homes that do not want the asphalt.

3. WHAT IS YOUR PLAN?

- Maintenance
- The city cannot maintain concrete how will they maintain asphalt, which is higher maintenance?
- Wear and Tear (Several garbage truck companies travel our roads at least twice a week) **EACH TRUCK WEIGHS 27 TONS which is the equivalent of 54,000# when loaded.....**
- Appearance of curbs and drainage.
- Mayor, I like to quote you from the article in the newspaper "The asphalt will remain in good shape for 20 years".
- In the public hearing it was stated that there were to be 4" of asphalt poured. The newspaper said 1 ½ to 2". **Which is it??** How Many bids do you have on this project?

5. FIX IT RIGHT

- Don't repair our streets with a band aid.
- It may look good for a year or so, after that it will be a disaster.
- Use the funds to repair what you can on the worst streets with concrete. Do it right!!!!!!!!!!!! Make it last.....**Concrete lasts longer.....**

6. MAYOR/COMMITTEE

- We are pleading with you not to asphalt our streets.
- As you can see the vast majority of the people are **DEAD SET** against asphalt..
